EDUCATION

Dual Technical Diploma in Full Stack Development

Fundació Esplai — Talent IT · 2026

Full-Stack Web Bootcamp

Adalab · 2024

Big Data & AI

IOE Business School · 2026

Programming Fundamentals · Java

IT Academy · 2026

Higher Diploma, Clinical Lab

Escola Ramon i Cajal · 2020

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals

Microsoft

OTHER

- Driving licence (Cat. B)

Carme Medina Canalda

Full Stack Developer

Angular · FastAPI · React — from the lab to the code

- Looking for work · Remote / On-site in Spain

PROFILE

Junior full-stack developer who moved from the clinical lab to code. At Fundació Esplai I work daily with Angular and Microsoft 365, and I've built 6+ full-stack apps with Angular, FastAPI and React, several with AI. Three years of RIA/EIA assays gave me rigour and a method I now apply to every line of code.

EXPERIENCE

Junior Full Stack Developer

Mar 2026 — Present

Fundació Esplai — Talent IT

- Angular data-modelling app for the whole Digital Transformation department: uses Microsoft Graph to send data into Microsoft 365 and automate tasks there, on a custom tenant and with Power Apps.
- Rebuilt a full WordPress site with custom plugins (HTML, CSS, PHP), working in a multidisciplinary team with weekly releases on Git/GitHub.

Freelance Web Developer

2024 — 2025

Private client

- Designed, built and deployed a responsive website for a private client end to end (HTML, CSS, JS, Vercel).

Laboratory Technician

2021 — 2024

Unilabs · Synlab · Reference Laboratory

- Ran RIA/EIA assays under strict protocols with zero margin for error; a methodical approach I now apply to code.

Technical Support Agent

Jun 2019 — Jul 2021

Teleperformance

- Inbound and outbound technical support calls and back-office email management.

SELECTED PROJECTS

Demos on free hosting: the first load can take 30–50 s.

Plantealo

plantealo-1.onrender.com

Plant-care PWA (team of 3); integrated an AI vision chat (Groq) that identifies plants from a photo.

Angular · FastAPI · PostgreSQL · Groq

GitHub

Real-time messenger

chat-frontend-o57q.onrender.com

WebSocket messaging with an AI assistant and RAG chatbot; fixed an OOM on the 512 MB tier by moving to Qdrant Cloud.

Angular 21 · FastAPI · Qdrant

GitHub

Portfolio v2

carme-portfoli.onrender.com

Angular portfolio with a custom AI assistant (RAG); independent frontend and backend in production.

Angular · FastAPI · SCSS

GitHub

Connect 4

conecta4-frontend.onrender.com

Real-time multiplayer game with an AI opponent (Groq) over WebSockets.

Angular · FastAPI · WebSockets

GitHub

STRENGTHS

- Attention to detail
- Problem-solving
- Teamwork
- Fast learner
- Communication
- Organisation
