

Carme Medina Canalda

> Full Stack Developer

Barcelona · dev.mee96@gmail.com · +34 655 616 804 · carme-portfoli.onrender.com · github.com/mee96 · linkedin.com/in/carme-medina-canalda

Product-minded full-stack developer. I've built 6+ full-stack apps with Angular, FastAPI and React —several in production and integrating AI (RAG, LLMs)— with 370+ GitHub contributions in the past year. I add a solid technical base plus 3 years as a clinical lab technician that give me rigour, precision and a clear method to solve problems and ship clean, tested code.

// tech stack

Frontend	Angular 17–21, React, Next.js, TypeScript, JavaScript, HTML5, SCSS, Ionic, PWA
Backend	Python, FastAPI, Node.js, Express, REST APIs, WebSockets
Data & auth	MySQL (Aiven), PostgreSQL, Firebase Auth
AI	LLM integration (Groq), RAG (Qdrant, embeddings) · Microsoft Certified: Azure AI Fundamentals
Tools & methods	Git, GitHub, Gitflow, Agile/Scrum, Figma, WordPress

// experience

Junior Developer 2026 – Present

[Fundación Esplai — dual VET placement](#)

Built and shipped full-stack apps to production (Angular, FastAPI, Python, MySQL) on weekly release cycles with Git/GitHub. Led the full redesign of a digital-transformation website for the non-profit sector (WordPress/Elementor + PHP child theme).

Web Developer · Freelance 2024 – 2025

[Private client](#)

Designed, built and deployed a responsive website for a private client end to end (HTML, CSS, JS, Vercel), owning the project from requirements to delivery.

Laboratory Technician 2021 – 2024

[Unilabs](#) · [Synlab](#) · [Reference Laboratory](#)

Processed and traced clinical samples daily with RIA/EIA assays under strict protocols and QC, with zero margin for error. Built a methodical approach I now apply to writing and testing code.

Technical Support Agent 2019 – 2021

[Teleperformance](#)

Resolved technical incidents by phone and handled back office, developing communication and composure under pressure.

// selected projects

Plantealo plantealo-1.onrender.com
Installable plant-care PWA built in a team of 3; integrated an AI vision chat (Groq) that identifies plants from a photo. In production. Angular · FastAPI · PostgreSQL.
Real-time messenger chat-frontend-o57q.onrender.com
WebSocket messaging (Angular 21 · FastAPI) with an AI assistant and a RAG chatbot; fixed an OOM crash on the 512 MB free tier by migrating embeddings to Qdrant Cloud.
Portfolio + AI chat (RAG) carme-portfoli.onrender.com
Angular portfolio with a custom AI assistant (RAG with Qdrant + Groq, WebSocket streaming); independent frontend and backend in production.
Connect 4 conecta4-frontend.onrender.com
Built a real-time multiplayer game with an AI opponent (Groq) over WebSockets. Angular · FastAPI.
BubbleTea API bubbletea-api.vercel.app
Full-stack REST API (FastAPI + MySQL/SQLAlchemy) with Firebase auth and an admin panel for a 53-item catalogue. Angular 21.

// education

Dual Technical Diploma in Full Stack Software Development 2026
Fundación Esplai — Talent IT
Introduction to Big Data & AI 2026
IOE Business School
Programming Fundamentals (Java) 2026
IT Academy
Full-Stack Web Development Bootcamp 2024
Adalab
Higher Diploma, Pharmaceutical & Biotech Manufacturing 2022
INS Severo Ochoa, Esplugues de Llobregat
Higher Diploma, Clinical & Biomedical Laboratory 2020
Escola Ramon i Cajal, Barcelona
