

Carme Medina Canalda

Full Stack Developer

Angular · FastAPI · React — from the lab to the code

[My portfolio →](#)

PROFILE

Product-minded full-stack developer. I've built 6+ full-stack apps with Angular, FastAPI and React (several in production, with AI) and 370+ GitHub contributions this past year. Plus 3 years in a clinical lab that give me rigour, precision and method to solve problems and ship clean code.

EXPERIENCE

Junior Full Stack Developer

2026 – present

Fundació Esplai — Talent IT

- Shipped full-stack apps to production (Angular, FastAPI, Python, MySQL) on weekly cycles with Git/GitHub.
- Led the full redesign of a digital-transformation website for the non-profit sector (WordPress/PHP).

Web Developer · Freelance

2024 – 2025

Private client

- Designed, built and deployed a responsive website for a private client end to end (HTML, CSS, JS, Vercel).

Laboratory Technician

2021 – 2024

Unilabs · Synlab · Reference Laboratory

- Ran RIA/EIA assays under strict protocols with zero margin for error; a methodical approach I now apply to code.

SELECTED PROJECTS

Plantealo

[plantealo-1.onrender.com](#)

Plant-care PWA (team of 3); integrated an AI vision chat (Groq) that identifies plants from a photo.

Angular · FastAPI · PostgreSQL · Groq

Real-time messenger

[chat-frontend-o57q.onrender.com](#)

WebSocket messaging with an AI assistant and RAG chatbot; fixed an OOM on the 512 MB tier by moving to Qdrant Cloud.

Angular 21 · FastAPI · Qdrant

Portfolio v2

[carme-portfoli.onrender.com](#)

Angular portfolio with a custom AI assistant (RAG); independent frontend and backend in production.

Angular · FastAPI · SCSS

Connect 4

[conecta4-frontend.onrender.com](#)

Real-time multiplayer game with an AI opponent (Groq) over WebSockets.

Angular · FastAPI · WebSockets

STRENGTHS

- Attention to detail · Problem-solving · Teamwork · Fast learner · Communication
- Organisation

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals

Microsoft

OTHER

Driving licence (Cat. B)
